The asterisk (*) preceding the page number indicates an original article in the Archives. Subject entries are made for all articles. Author entries are made for original articles and society transactions. Book Reviews, Obituaries and Society Transactions are indexed under these headings in their alphabetical order under the letters B, O and S, respectively.

- Abnormalities:** See under names of organs and regions
- Abscess:** See Cerebellum, abscess; etc.
- Absinth, cerebral circulation:** action on pial arteries of convulsants caffeine, absinth, camphor and picrotoxin, *980
- Achlorhydria:** See Stomach, acidity
- Acid, acetylsalicylic, case of psychosis due to large doses,** 947
- Acid-Base equilibrium of blood in psychotic patients,** 932
- Adenoma, basophil (pituitary basophilism),** 198
- Adolescence, years of puberty in public school,** 200
- Adrenals:** See Suprarenals
- Akinesia algera,** *843
- Alcohol injected intravenously; its penetration into spinal fluid in man,** *1092
- Alcoholism, blood-cerebrospinal fluid barrier in alcoholic disorders and in schizophrenia complicated by alcoholism; distribution ratios of bromide, calcium, sugar and chlorides,** *141
- diagnosis of drunkenness from excretion of alcohol, 934
- turning points in analysis of case, 685
- Alexia:** See Aphasia, visual
- Allergy:** See Anaphylaxis
- Alpers, B. J.: Hypothalamus and temperature control,** *728
- Altitudes, high; biochemistry and mental disorder,** 1147
- Alzheimer's Disease:** See Insanity, presenile
- Amentia:** See Feeble-mindedness
- American Neurological Association, constitution and by-laws,** *1126
- Amnesia, clinical and anatomic study of mnemonic function; amnesic syndrome in case of glioma of corpus callosum,** 1387
- Amyotrophy:** See Atrophy, muscular
- Anaphylaxis and Allergy; pathology and symptomatology of headaches due to specific sensitization,** 434
- Anemia, funicular myelitis of Lichtheim in pernicious anemia; cure with liver diet,** 936
- pernicious, intravenous liver treatment, 1167
- Anesthesia, controlled spinal anesthesia, its value in establishing appropriate levels for chordotomy,** *1276
- glucose insulin administration in prolonged narcosis, 912
- paralysis of left superior oblique with anesthesia of syringomyelic type of right arm and thorax after cranial trauma, 1383
- Aneurysm, cerebral, with recurrent leakage,** 1159
- internal carotid artery; report of case simulating tumor of pituitary, *607
- unilateral exophthalmos without sensory disorders associated with carotid-jugular aneurysm of same side, 445
- Angioma, angiomatous malformation of brain,** 1145
- angiomatosis retinae, clinical characteristics, histopathology and inheritance factor of Hippel-Lindau's disease, 426
- angiomatosis retinae, cystic capillary angiomatosis of retina, 445
- venous angioma of retina, optic nerve, chiasm and brain, 926
- Angioscotometry, application in study of ocular lesions of nasal sinus origin,** 1168
- Anomalies:** See under names of organs and regions
- Anoxemia; biochemistry and mental disorder,** 1147
- Aorta, oligosymptomatic mesoarteritis and syphilis of central nervous system,** 672
- Aphasia, cervical hyperesthesia, aphasia, mutism and olfactory hallucination following cranial traumatism,** 1378
- disturbances in visuomotor Gestalt function in organic brain disease associated with sensory aphasia, *514
- in polyglots, 650
- visual; alexia following injury of head, 223
- Apparatus, demonstration of apparatus for estimating chronaxia for clinical use,** 1171
- perimeter spot-light object, 1383
- technic of encephalography with demonstration of new apparatus, 1183
- Arachnoid, hypernephroma-metastasis or sarcoma (?) of arachnoid,** 208
- Arachnoiditis adhaesiva circumscripta,** 639
- case involving chiasm and optic nerves, 1166
- fibrosa spinalis syphilitica presenting clinical picture of pseudotumor, 910
- Argyll Robertson Pupils:** See under Pupils
- Arsphenamine, pericapillary encephalorrhagia due to arsphenamine; so-called arsphenamine encephalitis,** *1226
- Arteriosclerosis, hypophyseal cachexia in arteriosclerosis of brain,** 638
- Artery, cerebral, bilateral occlusion of posterior cerebral artery,** 1372
- necrotizing arteritis and subacute glomerulonephritis in gonococcal endocarditis, 912
- Association for Research in Nervous and Mental Disease, annual meeting,** 1132
- Astereognosis:** See Touch
- Asthma, subarachnoid hemorrhage during asthmatic attack,** 224
- Astrocystoma of cerebellum; survival period of 45 years without operation,** *1100
- Atrophy:** See also under names of organs and regions
- facial hemiatrophy, 693
- muscular; familial muscular atrophy, 460
- Ayer's method for puncture of cisterna magna,** *1282

INDEX TO VOLUME 30

- Bacteria**, acid-lactici, meningitis due to, in newborn infant, 1161
bacterial protein fever in treatment of syphilis in rabbit, 929
Morgan's no. I bacillus, meningitis and septicaemia due to, 1168
- Bard, P.**: Studies on cerebral cortex; localized control of placing and hopping reactions in cat and their normal management by small cortical remnants, *40
- Barker, L. F.**: Case of intrapontile glioma; differentiation of syndromes referable to progressive involvement of pons, mesencephalic and bulbar regions, *875
- Barrera, S. E.**: Effects of lesions of inferior cerebellar peduncle at various levels in monkeys, 937
- Bazett, H. C.**: Hypothalamus and temperature control, *728
- Bear**, cerebral hemispheres of American black bear (*Ursus americanus*); morphologic and phylogenetic characteristics, *1
motor cortex of bear (*Ursus americanus*); physiologic and histologic study, *14
- Behavior**, differentiation of behavior patterns in fetus and infant, 1382
diseases: clinical report of treatment of mothers in relation to behavior diseases in their families, 1398
transient child in school, 1156
- Bender, L.**: Disturbances in visuomotor Gestalt function in organic brain disease associated with sensory aphasia, *514
- Birth control**; can birth control reduce insanity? 1389
trauma; relation of birth trauma to neonatal mortality and infant morbidity, 1391
- Bismuth and Bismuth Compounds**: See Syphilis; Tabes dorsalis; etc.
- Bladder**, neurophysiology of urinary bladder in man, 1149
- Blastomycete**, meningitis and dermatitis caused by new variety of blastomycete, 434
- Blood**, acid-base equilibrium in psychotic patients, 932
and cerebrospinal fluid barrier in alcoholic disorders and in schizophrenia complicated by alcoholism; distribution ratios of bromide, calcium, sugar and chlorides, *141
cholesterol in schizophrenia, *567
circulation: action of epinephrine on pial vessels; action of pituitary and pitressin on pial vessels; vasomotor response in pia and in skin, *957
circulation: action on pial arteries of convulsants caffeine, absinth, camphor and picrotoxin, *980
circulation: alteration of circulation of brain by surgical means in diseases of central nervous system, 190
circulation: cerebral blood flow preceding and accompanying experimental convulsions, *1003
circulation: induced variations in volume flow through brain perfused at constant pressure, *775, 949
halogen balance of blood, spinal fluid and urine in patients with convulsive states on bromide-chloride therapy, *114
lipolytic activity: studies of pathogenesis of multiple sclerosis; further evidence of abnormal lipolytic activity in blood in multiple sclerosis, 1387
oxygen; biochemistry and mental disorder, 1147
- Blood—Continued**
pressure, circulatory disorders in psychoneurosis in terms of Schneider index, 446
pressure; galvanic skin reflexes and reactions of blood pressure in psychoneuroses, 1395
pressure; galvanic skin reflex and reactions of blood pressure in psychoses, 1396
pressure, high; malignant hypertension simulating brain tumor, 1388
pressure; relationship of arterial blood pressure to spinal fluid pressure in man, *1369
sedimentation rate in schizophrenia, *1298
striatal blood picture of Sato-Yoshimatsu, 188
sugar; blood-cerebrospinal fluid barrier in alcoholic disorders and in schizophrenia complicated by alcoholism; distribution ratios of bromide, calcium, sugar and chlorides, *141
sugar; neurologic syndromes associated with hypoglycemia, 1165
- Body measurements**, significance of, 1401
- Bone**, superior pulmonary sulcus tumor; tumor characterized by pain, Horner's syndrome, destruction of bone and atrophy of hand muscles, 435
- BOOK REVIEWS:**
Allgemeinerscheinungen der Hirngeschwülste; F. Kehrer, 704
Anatomie des Menschen; H. Braus, 706
Anatomisch-histologische Untersuchungen über das sympathische Nervensystem; F. Kiss, 704
Anger in Young Children; F. L. Goodenough, 705
Anjea; H. Aptekar, 1191
Apparatus for Rapid Study of Ultra-Violet Absorption Spectra; Medical Research Council, 1190
Approach to Parent (Study in Social Treatment); E. Heath, 1192
Cardiac Output of Man in Health and Disease; A. Grollman, 244
Clinique et thérapeutique hydroclimatique; M. Villaret and L. Justin-Besançon, 706
Das Rechts-Links Problem im Tierreich und beim Menschen; W. Ludwig, 241
Diagnostik der Hirngeschwülste; K. Goldstein and H. Cohn, 242
Einführung in die Psychoanalyse; H. Schultz-Hencke, 703
Ergebnisse der Reiztherapie bei progressiver Paralyse; K. Bonhoeffer and P. Jossmann, 1188
Etudes neurologiques; G. Guillaumin, 243
Growth and Development of Child: Part I. General Consideration; K. D. Blackfan, 705
Growth and Development of Child: Part II. Anatomy and Physiology; K. D. Blackfan, 706
Grundzüge der Entwicklungsgeschichte des Menschen in vergleichender Darstellung; R. Weissenberg, 480
Grundzüge der Psychoanalyse; L. Kaplan, 480
Humoral Agents in Nervous Activity with Special Reference to Chromatophores; G. H. Parker, 243
Hydrotherapy in Hospitals for Mental Diseases; R. Wright, 243
Krankheitserreger und Gewebefund bei multipler Sklerose: Vergleichend-histologisch-parasitologische Untersuchungen bei multipler Sklerose und anderen Spirochätosen; G. Steiner, 707
Lehrbuch der Nervenkrankheiten für Studierende und praktische Ärzte in 30 Vorlesungen; R. Bing, 244

Book Reviews—Continued

- Mental Deficiency Due to Birth Injuries; E. A. Doll; W. M. Phelps and R. T. Melcher, 479
- Neurobiologie de l'hallucination; R. Mourgue, 956
- Neuropathology: Anatomical Foundation of Nervous Diseases; W. Freeman, 242
- Outline of Cranial Nerves; J. Favill, 244
- Pollomyelitis, 244
- Practical Medicine Series of Year Books: Neurology, P. Bassoe; Psychiatry, F. G. Ebaugh, 707
- Probation and Criminal Justice; S. Glueck, 1191
- Process of Human Behavior; M. Sherman and I. C. Sherman, 241
- Prohibition in den Vereinigten Staaten; G. Schmolders, 1192
- Psychiatrie médico-légale; H. Claude, 954
- Psychological Effects of Menstruation; M. Chadwick, 239
- Psychopathology of Forced Movements and the Oculogyric Crises of Lethargic Encephalitis; S. E. Jelliffe, 237
- Séquelles de l'encéphalite épidémique; G. Guillaud and P. Mollaret, 707
- Sex and Internal Secretions: Survey of Recent Research; E. Allen, 1350
- Third Report of Miners' Nystagmus Committee, Medical Research Council, 1185
- Wissenschaft am Scheidewege von Leben und Geist; H. Prinzhorn, 955
- Zur Klinik und Analyse der psychomotorischen Störung; O. Kauders, 701
- Bowman, K. M.: Psychosis due to large doses of acetylsalicylic acid, 947
- Brachial plexus, hysterical overlapping in case of injury by traction of right brachial plexus; neurotic sequelae of accidents, 1146
- Brain: See also Arachnoid; Arachnoiditis; Cerebellum; Corpus striatum; Dura mater; Meninges; etc.
- acute glomerular nephritis in children, treatment of cerebral manifestations, 910
- adiposity with nerve deafness, mental deficiency and genital dystrophy: variant of Laurence-Biedl syndrome, 1166
- alteration of decerebrate rigidity by section of nerve supply, 444
- anatomic and functional relationships of nucleus dorsalis (Clarke's column) and of dorsal spinocerebellar tract (Flechsig's), *1025
- aneurysm with recurrent leakage, 1159
- angioma; venous angioma of retina, optic nerve, chiasm and brain, 926
- angiomatous malformation of brain, 1145
- architectonic localization based on bio-electric manifestations in cerebral cortex; contribution to study of pupillary reaction to light in guinea-pig, 1164
- arteriosclerosis with hypophyseal cachexia, 638
- blood flow preceding and accompanying experimental convulsions, *1003
- blood supply; action of epinephrine on pial vessels; action of pituitary and pitressin on pial vessels; vasomotor response in pia and in skin, *957
- blood supply; action on pial arteries of convulsants caffeine, absinth, camphor and picrotoxin, *980
- blood supply; alteration of circulation by surgical means in diseases of central nervous system, 190

Brain—Continued

- blood supply; induced variations in volume flow through brain perfused at constant pressure, *775, 949
- calcifications, multiple, 464
- calcium and phosphorus content in experimental rickets and tetany, 922
- centrifugal influence on centripetal systems in brain, 456
- changes in cortex in puerperal eclampsia, 206
- changes in legal electrocution, *1046
- clinical characteristics, histopathology and inheritance factor of Hippel-Lindau's disease, 426
- conditioned reflex of cerebral cortex, 1385
- "corticalization" of function and functional localization in cerebral cortex, *884
- corticofugal pathways for mastication, lapping and other motor functions in cat, *292
- cyst; ependymal cyst of third ventricle associated with diabetes mellitus, 431
- cyst; neuroepithelial cyst impacted in third ventricle of brain, *880
- defect; failure of opercula to cover left insula, *402
- disease; juvenile cerebrovascular disease, 201
- disease; symptomatology of organic diseases of interbrain; useful diagnostic interbrain syndrome, 674
- diseases of right temporal lobe, symptomatology of, 645
- disturbances in visuomotor Gestalt function in organic brain disease associated with sensory aphasia, *514
- effects of lesions of inferior cerebellar peduncle at various levels in monkeys, 937
- electrical excitability and cyto-architecture of premotor cortex in monkeys, *1205
- electrobiologic symptoms on cortex cerebri, 1163
- embryology; data on relative time of formation of cerebral ganglia of amblystoma jeffersonianum, 441
- encephalography: See Brain, roentgenography
- functions of olfactory parts of cerebral cortex, 426
- glioma; case of intrapontile glioma; differentiation of syndromes referable to progressive involvement of pontile, mesencephalic and bulbar regions, *875
- hemispheres of American black bear (*Ursus americanus*); morphologic and phylogenetic characteristics, *1
- hemorrhage into gliomas; review of 832 consecutive verified cases of glioma, *1061
- hemorrhage; pericapillary encephalorrhagia due to arsphenamine; so-called arsphenamine encephalitis, *1226
- histologic studies of brain in cases of fatal injury to head, 1158
- hypothalamus and temperature control, *728
- intracranial hydrodynamics; influence of rapid decompression of ventriculosubarachnoid spaces on occurrence of edema of brain, *107
- lacunar disintegration in senile cerebrum and pseudobulbar syndrome, 1149
- localization in cerebrovascular disease, *749
- localization; localized control of placing and hopping reactions in cat and their normal management by small cortical remnants, *40
- localization of epileptic manifestations, *709
- loss of movements of dexterity in case of lesion of left parieto-occipital lobe, 205

INDEX TO VOLUME 30

Brain—Continued

- macroglia of cerebral cortex of normal dog with new Lugaro method, 908
- megalencephaly with diffuse glioblastomatosis of brain stem and cerebellum, *795
- motor cortex of bear (*Ursus americanus*); physiologic and histologic study, *14
- occipitofrontal association tract, myth of, *1248
- physiology of cerebral cortex, theoretical deductions from, 425
- roentgenography; encephalography and its prognostic importance in course of dementia paralytica, 664
- roentgenography, encephalography, craniography and ventriculography, 936
- roentgenography; technic of encephalography with demonstration of new apparatus, 1183
- roentgenography; value of encephalography in determining cerebral function, 951
- roentgenography; ventriculographic interpretation, *1011
- sclerosis of cerebral basal vessels associated with optic atrophy and cupping, 186
- sclerotic atrophy of cerebral hemispheres, 1369
- thrombosis of intracranial arteries; report of 3 cases involving, respectively, anterior cerebral, basilar and internal carotid arteries, *342
- tumor; colloid tumors of third ventricle, *309
- tumor; differential diagnosis of lesions of angle with especial reference to tumors, 904
- tumor, focal enlargement of temporal bone as sign of, 433
- tumor, intracranial, 933
- tumor; malignant hypertension simulating brain tumor, 1388
- tumor; mental aspects of, in psychotic patients; study of 26 verified cases, 211
- tumor of muscle type; report of group of cases, with reference to metastasis of leiomyosarcoma to brain, 934
- tumor of right temporal lobe, 929
- tumor of temporal lobe; critical review of 52 verified cases, *824
- Brickner, R. M.: Abnormal excretion of theelin and prolan in patients suffering from migraine; preliminary report, 228
- Brill, A. A.: Freud's more recent contribution to psychoanalysis, 473
- Bromide, blood-cerebrospinal fluid barrier in alcoholic disorders and in schizophrenia complicated by alcoholism; distribution ratios of bromide, calcium, sugar and chlorides, *141
- halogen balance of blood, spinal fluid and urine in patients with convulsive states on bromide-chloride therapy, *114
- Brouwer, B.: Centrifugal influence on centripetal systems in brain, 456
- Buchanan, D. N.: Studies on tonus of human skeletal muscles; theory of parallelism of muscle fiber and sensory end-organ as explanation of lengthening reaction, 1170
- Value of encephalography in determining cerebral function, 951
- Bucy, P. C.: Electrical excitability and cytoarchitecture of premotor cortex in monkeys, *1205
- Studies on tonus of human skeletal muscles; theory of parallelism of muscle fiber and sensory end-organ as explanation of lengthening reaction, 1170

- Burke, E. R.: Blood-cerebrospinal fluid barrier in alcoholic disorders and in schizophrenia complicated by alcoholism; distribution ratios of bromide, calcium, sugar and chlorides, *141
- Cachexia, hypophyseal cachexia in arteriosclerosis of brain, 638
- Caffeine; cerebral circulation; action on pial arteries of convulsants caffeine, absinth, camphor and picrotoxin, *980
- Calcium and phosphorus content of brain in experimental rickets and tetany, 922
- blood-cerebrospinal fluid barrier in alcoholic disorders and in schizophrenia complicated by alcoholism; distribution ratios of bromide, calcium, sugar and chlorides, *141
- influence of vitamin B and of iodine on calcium and phosphorus metabolism of rabbits with hyperplastic thyroids, 920
- Camphor, cerebral circulation; action on pial arteries of convulsants caffeine, absinth, camphor and picrotoxin, *980
- Cancer: See also under names of organs and regions
- effect of pituitrin in malignant disease, 926
- Cannon, P. R.: Impaction of neuroepithelial cyst in third ventricle of brain, *880
- Cantor, M.: Sphenoccipital chordoma; report of case, *612
- Catalepsy; cataleptic sleep, 430
- Cataract, myotonia atrophica with cataract; report of 3 cases, *810
- Catatonia: See Dementia Praecox
- Cerebellum, 902
- abscess, 1164
- apoplexy 1392
- astrocytoma, survival period of 45 years without operation, *1100
- cyst, suboccipital puncture of, 209
- fine normal and pathologic structures of dentate nucleus in man, 433
- megalencephaly with diffuse glioblastomatosis of brain stem and cerebellum, *795
- of *Triturus torosus*, 438
- pathologic anatomy, 428
- tumors, fundamental principles and technic of surgical treatment, 194
- Cerebrospinal Fluid, alcohol injected intravenously; its penetration into spinal fluid in man, *1092
- blood-cerebrospinal fluid barrier in alcoholic disorders and in schizophrenia complicated by alcoholism; distribution ratios of bromide, calcium, sugar and chlorides, *141
- clinical and pharmacodynamic investigations of pressure by means of serial measurements in mentally diseased persons, 428
- cytologic reactions of syphilitic fluid and new method for diagnosis of neurosyphilis, 1379
- genetic-functional study of 651
- halogen balance of blood, spinal fluid and urine in patients with convulsive states on bromide-chloride therapy, *114
- Müller's reaction in, 1387
- pressure and sleep, 915
- pressure in syphilis, 1165
- relationship of arterial blood pressure to spinal fluid pressure in man, *1309
- significance and value of Lange gold sol reaction in disseminated sclerosis, 1163
- significance of increase of albumin without corresponding increase of cells in spinal fluid, 652

INDEX TO VOLUME 30

- Cerebrospinal Fluid**—Continued
significance of sugar, 933
study of, 665
Taccione's reaction in, 199
- Cerebrum**: See **Brain**
- Chance, recognition of operation of chance by child, 1384
- Charcot joint, clinical observations on tabetic arthropathies (Charcot joint), 191
- Child guidance, preliminary report on processes of treatment and result at Institute for Child Guidance, 1402
- Children, problem of the transient child in school, 1156
- Childs, H. M.: Blood cholesterol in schizophrenia, *567
- Chlorides, blood-cerebrospinal fluid barrier in alcoholic disorders and in schizophrenia complicated by alcoholism; distribution ratios of bromide, calcium, sugar and chlorides, *141
- Chlorine, halogen balance of blood, spinal fluid and urine in patients with convulsive states on bromide-chloride therapy, *114
- Choked Disk: See **Neuritis, optic**
- Chordoma, spheno-occipital chordoma; report of case, *612
- Chordotomy: See **Spinal Cord, surgery**
- Chorea, epidemic in family, 1167
in 3 children occupying same bedroom, 1168
treatment with nirvanol, 922
- Christian-Schüller Syndrome: See **Schüller-Christian syndrome**
- Chronaxia, apparatus for estimation of, 1171
- Cisterna Magna puncture, general review and comparison between direct and indirect methods, 924
puncture; modification of Ayer's method used more than 5,000 times, *1282
puncture, subarachnoid hemorrhage following cisternal puncture, 224
- Clarke's column, anatomic and functional relationships of nucleus dorsalis (Clarke's column) and of dorsal spinocerebellar tract (Flechsig's), *1025
- Climacteric, accidents of male climacteric, 435
- Cobb, S.: Cerebral circulation: action on pial arteries of convulsants caffeine, absinth, camphor and picrotoxin, *980
Epilepsy: aura in epilepsy; statistical review of 1,359 cases, *374
- Coghill, G. E.: Growth of localized functional center in relatively equipotential nervous organ, *1086
- Convulsions, cerebral blood flow preceding and accompanying experimental convulsions, *1003
cerebral circulation; action on pial arteries of convulsants caffeine, absinth, camphor and picrotoxin, *980
clinical, 427
effect of various factors on experimentally produced convulsions, 1159
halogen balance of blood, spinal fluid and urine in patients with convulsive states on bromide-chloride therapy, *114
influence of emotion in precipitating convulsions, 234
